### **FAQs**

1. Can I buy more than one savings plan?  
You can buy as many savings plans as you need, provided you have adequate savings and the plans align with your financial needs.
2. What is the maximum investment that I can make under savings plans?  
The maximum investment limit depends on the type of savings plan that you choose. For instance, under PPF, the maximum investment limit is ₹1.5 lakhs. However, many plans do not have a maximum limit, and you can save as much as you want.
3. What is the minimum investment amount under savings plans?  
The minimum limit depends on the type of savings plan that you choose.
4. Are there savings plans that have an investment horizon of one or two years?  
Yes, there short-term savings plans that help you save for one or two years. Common examples include fixed deposits, recurring deposits, etc.
5. When is the right time to invest in saving plans?  
There is no right time to invest in savings plans. You can start saving as soon as possible to enjoy the benefit of compounding returns.
